

# OCR - A & OCR - B version 5.0

## Installing the fonts

Install the OCR-A and OCR-B fonts like any other TrueType or Type 1 font by using the Fonts Control Panel (Start/Settings/Control Panel/Fonts/File/Install New Font). Or use the Adobe Type Manger (ATM) Control Panel to install the Type 1 font.

Once properly installed, the OCR-A and OCR-B fonts will appear in the Type... menu of your Microsoft Windows applications.

## Creating OCR-A and OCR-B Symbols

Printing OCR-A and OCR-B symbols is easy. Simply format the string you want in either the OCR-A or OCR-B font. Like all outline fonts, the OCR fonts can be scaled to a wide variety of point sizes.

**OCR - A     123 ABC**

**OCR - B     123 ABC**

Please contact us if you would like to redistribute our fonts bundled with your applications. This requires a separate redistribution agreement.
