# 2010

Azalea Software sells barcode software. (Arguably the best such software around but we'll let you be the judge of that.)

For several years we've given calendars to family, friends, and business partners featuring our president/CEO's photography.

2009 has been as challenging for us as it has been for you. Running a small business just hasn't been as much fun as it usually is. We've trimmed the sails, cut expenses to the bone, and held our breath waiting for better times. *Perseverance furthers.*

Instead of canceling our calendar project this year we decided to give away the PDF file to anyone and everyone. This saves us printing and mailing costs but more importantly it makes our humble calendar available to one and all. We hope you enjoy it all year long. Feel free to share it with others.

And yes, those *are* our birthdays. Please feel free to celebrate them as you see fit.
