

Gorgeous 2010 Calendars

SEATTLE WA - Azalea Software, Inc. has just released two free 2010 calendars. Creating calendars for family, friends, and business partners has been an Azalea Software tradition for several years now.

This year's calendar features the photography of Azalea's president & CEO, Jerry Whiting. The photographs feature industrial textures found in Seattle's SoDo neighborhood, a commercial district that reminds Jerry of his hometown of Cleveland.

The calendars are PDF files which can be downloaded and printed by anyone. They'll look good out of your laser printer and even better when printed in color on high quality paper stock. Each page features that month's photo, dates, holidays, and celebrations as recognized by Azalea.

As an added bonus, Peg Ogle Design is sharing a 2010 calendar, "Explore Imagine Create".

All three calendars are available for free at: www.azalea.com/calendar

Azalea Software, Inc.

3400 Harbor Ave SW #411
Seattle WA 98126-2398
